LODGE TO URGE AMALGAMATION

Senator Says He Will Tell Colonel that Patriotism Should Rise Over Partisanship

NEW YORK, May 26.—Resplendent in a Panama hat of college boy type, his accustomed smile and a pepper and salt sack suit, Col. Theodore Roosevelt arrived today from Oyster Bay and departed at 10 o'clock for Washington.

The Roosevelt party was met at the depot by Representative Victor Murdock, the Kansas progressive.

Colonel Roosevelt made no statement here today as to when he will issue a declaration of policies and of criticism of the present national administration, which, it is reported, will be given out in the near future.

WASHINGTON, May 26.—Physicians and scientists vied in suppressed excitement in awaiting the advent here today of Colonel Roosevelt. Nine strenuous hours, beginning at 3:30 o'clock this afternoon, awaited the colonel.

Sensors Clapp and Poindexter, progressive leaders, left here early to meet Roosevelt at Philadelphia. Most of the progressives in congress planned to meet the colonel's train this afternoon, and also hold a political conference tonight after his lecture on his Brazilian explorations.

Whether overtures from republican leaders for amalgamation of the progressives and republicans would be made while Roosevelt was here was one of the interesting possibilities discussed. He will meet Senator Lodge.

After an informal depot reception this afternoon, the program included a visit to the Smithsonian institute to view trophies of his African hunt, a short call upon President Wilson at the White house and a dinner party before the River Doubt lecture. Senator Lodge has confided to his closest friends that he was going to "tell Theodore that time was ripe for patriotism to rise above partisanship," and that he owed it to himself to unite the various factions in republicanism, including the colonel's own bull moose.

URGES CLEANING FOR HOMECOMING

Mayor Sorensen Issues a Proclamation Today in Effort to Start Beautifying of the City

MANY PLEDGE HIM THEIR SUPPORT

Businessmen Agree to Take Litter from Streets and Alleys; Private Citizens Must Also Help

Mayor Ori J. Sorensen today donned his apron, grabbed a broom and started cleaning up the city.

Of course he didn't do it literally. He did, however, issue a proclamation to La Crosse people to clean up for Homecoming Week.

"Many of our streets are littered with unsightly objects," he said. "I think we should put up our best 'front' when the city is crowded with visitors. I have seen many of the merchants and business men on Front street and they have agreed to aid in clearing up and cleaning up."

"Homer Hart tells me he will move his engines from the foot of Main street, Starch Brothers at Front and Pearl have agreed to clean up around their place and others have made similar agreements."

The board of public works has been appealed to by the mayor to aid in fixing up the block of street from Front and Pearl to Levee park.

The Proclamation

"By virtue of the power vested in me as mayor of the city of LaCrosse, and with due regard to the beauty of the municipality and the pride of its citizens, I hereby urgently request that every means be exerted to clean up the city during the time intervening before the joint Homecoming, Fourth of July and Made in La Crosse week celebration.

Boasting the reputation of being one of the handsomest cities in the United States and one of the most desirable places of residence, La Crosse must appear in the most favorable light to the hosts of former residents and visitors who will honor the municipality by their presence during the biggest celebration ever held here.

"In order that the city may be put in spick and span condition for the approaching event and that no unsightly conditions may be noted by the homecoming visitors, I suggest that the following work be done before June 15.

Clean the Yards

"Every property owner or renter in the residence district should clean all garbage, debris, ashes and weeds from back yards and alleys and cause the same to be hauled away and dumped at places designated by city ordinance.

"Every property owner or renter in the residence districts is urgently requested to keep lawns and boulevards in clean, well-kept condition. Trees and shrubbery should be trimmed and sidewalks swept clean.

"Occupants of stores and factories and business blocks of every description are advised to clean away all litter and rubbish in back lots and alleys and to take whatever steps may be deemed advisable to beautify the fronts of their places of business. In this connection I would suggest that, wherein possible, merchants install window boxes of flowers to adorn the fronts of their stores and that occupants of offices on upper floors take similar action.

"Business houses adjacent to Riverside park can be greatly improved in appearance by the removal of litter and articles of merchandise piled up in careless fashion in their rear.

"La Crosse must, indeed, be a city beautiful during the celebration week. (Signed.)

"O. J. SORENSON, Mayor."

REFUSE TO VOTE ON TRUST LEGISLATION

Board of Trade Tables Communication from National Board of Trade; Increase Funds

Because the La Crosse Board of Trade is not a political organization, the board of directors at a noon day meeting at the La Crosse Club, tabled a communication from the National Board of Trade, of which the local organization is a member, requesting that La Crosse vote on the national trust legislation now pending.

Enthusiasm over homecoming and Made in La Crosse week is still intense and at today's meeting of the directors substantial increases in the funds of the decorations, music, entertainment and advertising committees were allowed.

"Everything indicates that the celebration here during July will be the biggest and best event the city ever enjoyed," declared William F. Goodrich today.

LEAPS UNDER CARS WHEN SWEETHEART DIES IN HIS ARMS

Youth's Mangled Body Is Found Near Spot Where Girl Was Discov-ered

SHE DIED AS HE TRIED FOR KISS

Leaves Note Expressing His Despair and Determination to Die with Her

TWO SUICIDE ATTEMPTS FAILED

Spilled Chloroform Which He Attempted to Drink Beside Her Body

CHICAGO, May 26. — Reginald Barr, Downer's Grove youth, who jumped beneath a moving train today and was killed while he was being sought in connection with the mysterious death of pretty Florence Bentley, left a note declaring that the cloak model died in his arms while he was attempting to kiss her.

Tried Twice to Die

Whether he accidentally choked her to death in trying to stifle her screams, or she died of heart failure, the frightened youth declared he did not know. The note, found in his pocket, after his mangled body had been removed to Lisle, a suburb, said that he had made two attempts to end his life by chloroform beside the girl's body before her corpse was found in the woods near Downer's Grove last night.

"God forgive me for causing my sweetheart's death," he wrote. "I did not kill her. We walked out there in the woods and sat down. I tried to kiss her and she repulsed me. I put my arm around her waist and tried to kiss her. She screamed and I got excited and put my hand on her windpipe to stop her screaming. I went completely out of my head. She became quiet all of a sudden and was breathing heavily. I covered her up and don't remember what happened until I found myself out on the road.

Dies For Her

"The girl died of heart failure or fright. I could not kill her because I loved her more than words can tell. I would die for her and will die for her. Forgive me and I pray to meet my sweetheart in heaven."

Barr wrote that after finding that the girl was dead he went to Aurora and bought a bottle of chloroform. He returned to the spot where the lifeless body lay and tried to drink the chloroform, but the bottle tipped over and he spilled the contents. A second attempt, he said, resulted the same way. He evidently wandered away, crazed with fear, and finally threw himself before the train.

Found Near Scene

Fragments of his body were collected by the train crew and deposited in the little station at Lisle, less than three miles from the secluded spot in the weeds near Downer's Grove where the body of the twenty year old cloak model was found last night, her face and throat bruised.

Miss Bentley was employed as a cloak model by a Chicago house, but made her home at Downer's Grove, a suburb, where she was described as the "prettiest girl in town." She and Barr, who worked in a Chicago railway office, had been sweethearts for years, but according to the girl's friends she was tiring of him.

DEFIES KAISER TO WED SWEETHEART

Prince Oscar of Prussia Announces He Will Marry Countess Ina Marie

MAY BE CUT OFF FROM FAMILY

Is First Case on Record of Hohenzollern Determining on Morganatic Marriage

BERLIN, May 26.—German nobility, society and officialdom were aghast today when Prince Oscar of Prussia, fifth son of Kaiser Wilhelm publicly announced his engagement to marry Countess Ina Marie, daughter of Count Bassewitz of Mecklinburg.

It is the first instance on record where a male of the reigning branch of the Hohenzollerns has been morganatically engaged to wed. While the young countess is a woman of rank, she is not of royal blood.

It was confidentially expected the kaiser would either break the engagement or banish his son.

Prince Oscar is in his twenty-sixth year. The kaiser has but two children younger than he. Countess Ina Marie Bassewitz is a half year older than the prince.

Was Lady in Waiting

The countess met the prince while she was lady in waiting to Empress Augusta Victoria. It was believed at first that the Kaiser would consent to the marriage, but apparently he will not. The countess has not been received in the royal household since the prince's attachment for her became known.

By flatly announcing his intention to marry the girl of his choice regardless of Hohenzollern precedent and family tradition, Prince Oscar won the instant admiration of the German public. Until the prince came forward with his announcement, he was not a very important figure in German life. It was not known until now that Prince Oscar had backbone and stamina.

Expect a Battle

Germans are now convinced that he is a "chip of the old block," and a battle royal between the kaiser and his son is expected.

Prince Oscar is without income, save the bounty of the war lord. Should the kaiser forbid the match and the prince remain firm, he may be sent penniless out of Germany and have to work to support himself and wife.

NO CLOSING FOR CAMPBELL SALOONS

Returns Will Show People Voting 3 to 1 Against Closing Resorts at 12 Is Prediction

That the official returns of the special election in the town of Campbell today will show two-thirds of the people favoring no closing hours for saloons and road houses, is the prediction this afternoon of residents there.

The voting is unusually heavy and the no-closing advocates spent the entire day rounding up voters opposed to the midnight closing law, illegally passed at the regular town meeting.

The law which the people are today voting on provided that all saloons close at 12 o'clock, that dancing and music after that hour be prohibited within the township.

BUSINESS MEN COME TO AID OF MITCHEL FAMILY

Chauffeurs Who Started Movement for Their Relief Bring Widow and Children Into City

CLOTHING AND SHOES PROVIDED

Dresses for the Three Girls as Well as Clothing for the Seven Boys Are Forthcoming

GIVE PROVISIONS FOR TEN DAYS

Grocers Pile Cars with Good Things to Eat as Well as Articles for Wear

Two automobiles, carrying Mrs. John Mitchel, widow of the man who met death May 17, when he was struck by a motorcycle on the Morrison Coulee road, and her ten children, rolled about the business district of La Crosse this afternoon, and business men of the city redeemed their pledges to aid the family with clothing and shoes.

The automobiles were driven by Ernest Meyer and David Coady, the two chauffeurs in whose generous minds originated the movement for the aid of Mrs. Mitchel. The cars belonged to F. P. Hixon and Dr. Edward Evans, their employers.

Shoes, clothing, dress material and groceries were supplied to the Mitchells by local business men. Four clothing houses undertook to outfit the seven boys in the family. The Continental, Peter Newburg, Nels Thompson and M. & C. Newburg joined in supplying suits, hats and shirts.

Four shoe stores gave footgear.—Fred Heil, W. L. Strauss, Paulsen Shoe company and E. M. Gautsch.

The three girls in the family were supplied with material for dresses at Doerflingers'. At Lennon's pretty new hats—the finest they ever wore in their lives—were awaiting them. At the Scott-Rose and Barron establishments complete outfits of underwear were forthcoming.

From the downtown district the automobiles went to the outlying grocery stores of Mueller & Weltrowski on Market street, and Will Dittman, Twelfth and Pine streets, where groceries sufficient to last the family for ten days were piled into the cars.

Ernest Meyer said this morning that the fund for the relief of the Mitchel family was growing to satisfactory proportions. He was unable to give figures, but he declared that he and Dave Coady were well satisfied with the ready response to their appeal.

The finding declared that the defendant was guilty of actual and personal violence.

HOLD OVER PROBE OF ROAD'S BOOKS

Will Examine the Personal Books and Vouchers of J. P. Morgan for Facts

LEDYARD WAIVES IMMUNITY BATH

Will Testify Concerning the Road's Activities Regardless of Prosecution

WASHINGTON, May 26.—Presumably to permit an examination of the personal books and vouchers of J. P. Morgan & Co., and of the late head of that firm, the interstate commerce commission's probe of the alleged "looting" of the New Haven railroad was postponed today until June 3.

Simultaneously the subpoena served two weeks ago upon Lewis Cass Ledyard was cancelled and Ledyard, a former New Haven director, was invited to appear voluntarily, sign a waiver of immunity and testify. In accepting Ledyard, much chagrined, said he would "tell the whole truth," although it differed in many details from the statement of former President Meilen.

Ledyard said: "I am willing to tell all, but to be asked to sign a waiver of immunity carries with it a suggestion of wrong doing."

"It is agreed," said Justice Lamar, "that I can say we have begun to discuss the actual details of a plan of Pacification. Of a number of them we find ourselves in substantial agreement. Others are still under discussion, and as to them, there has been no disagreement. They are still under discussion. It is, of course, improper for us to specify the points under discussion and those on which we have agreed."

The statement of Justice Lamar is the first direct official word as to the progress of the conversation which were opened last Wednesday. Both the justice and Frederick Lehmann were smiling and obviously pleased as they came from the conference room.

Baking Helps

Valuable Suggestions
By Mrs. Nevada Briggs, Exponent of the Art of Baking, as taught by Mrs. Janet McKenzie Hill
Helpful Cake Making Hints
Always sift flour and K C Baking Powder at least three times. The more sifting, the lighter the cake. Remember that! To cream butter and sugar quickly, warm the sugar slightly. Beat yolks of eggs with rotary beater. Whip whites of eggs with flat spoon whip. Water makes lighter cakes; milk makes richer cakes.

To mix a cake, first cream butter and sugar thoroughly, then add yolks, if used. Then alternately add moisture and flour that has been sifted with baking powder and stir until smooth and glossy, adding egg whites after thoroughly mixing.

Always use K C Baking Powder. Biscuit Helps
Always sift flour and K C Baking Powder at least three times.

Have shortening cold and firm. Mix dough as soft as it can be handled. The softer dough goes into the oven, the lighter the biscuit when it comes out. It is easier for K C Baking Powder to do its work in soft than in stiff dough. Mix biscuits very little. Do not knead. Stir up with spoon or knife and press in shape to roll on floured board.

With K C Baking Powder results are sure and certain. Ask your grocer for K C.

HUNT FOR TAXES IS ON

CLEVELAND, O., May 26.—John D. Rockefeller today failed to return a list of his \$300,000,000 of personal property on which tax commissioners say the oil king must pay taxes here. Rockefeller's attorneys presented a tax duplicate last week but it did not bear Rockefeller's attorneys the time limit was extended to 10 a. m. today. The commissioners will now try to collect. They declare Rockefeller is a legal resident of Ohio. State officials back the commissioners.

Many a fellow who says he wouldn't stand for a certain thing promptly proceeds to fall for it.

URGES A MINIMUM WAGE FOR PASTORS

Presbyterian Convention Hears Recommendation for \$1,000 Yearly as Allowable

CHICAGO, May 26.—Establishment of a minimum wage of \$1,000 a year for all preachers, was suggested to the Presbyterian general assembly today by Dr. John Timothy Stone.

Dr. Stone made his suggestion after reading the committee's report that 1,443 retired Presbyterian ministers are now dependents, supported by contributions from churches and by interest on an endowment fund of \$3,000,000. This fund, he said, was entirely inadequate and should be increased to at least \$10,000,000. "Nothing is more pitiful," said Dr. Stone, "than a retired minister, broken in health, poverty stricken and forced to become an object of charity. Our ministers should be paid at least enough to permit them to live comfortably."

The assembly today instructed a committee to report next year on the feasibility of a plan, recommended by the federal council of churches of Christ, representing nearly all protestant denominations, providing for the establishment of one protestant church in towns of less than 500 population, where all Protestants might worship.

Daddy's Bedtime

What the Little Flag Said to Fred.

DADDY knew the children felt tired. The day after a holiday they always did, and Evelyn looked very sleepy. So he decided that he would not tell them a very long story, but one that would make them feel just like going to sleep the minute he finished. He had a story ready for them, so he began at once:

"There once was a little boy named Fred. He was very fond of soldiers and bands and all the things that little boys like. He had a great many little toy soldiers, and he would have the most wonderful drills with them."

"One thing he was very proud of. The last Memorial day his grandfather, who had since died, had given him a little, old, ragged flag. But it was the stars and stripes, and Fred cherished it. His grandfather had fought in the civil war and all through that war had carried the little flag. Now his grandfather was gone, and yesterday they had put a fresh flag on his grave. But Fred had the little flag that had been through the war."

"That night he was very tired, and he went to bed early. The cool white sheets and soft pillow were delightful to a very sleepy little boy, but soon he seemed to be sitting up on the pillow, and before him was the flag."

"I have come out of the pocket where you always keep me," said the little flag, "because I thought you would like me to tell you of my life."

"When your grandfather was a little boy he was given me as a prize for being good, and he was allowed to carry me when he marched in his school parade. Then when he grew up and became a man he went to the civil war, as you know."

"He was so brave in the war, and, oh, I was so proud that I was with him all the time and that it was for my sake that he was fighting! It's the most wonderful thing in the world to be a flag. Just think how proud every little flag is when it sees a great big one being carried at the head of a march for freedom! And when we fly in the breeze it always means something. It is to celebrate a holiday perhaps or to show people that patriotic citizens put it there."

"But to have been in that war with your grandfather is a thing I will never forget. Every flag hasn't had the opportunities that came my way. "And people do not have the opportunities to show their bravery, whereas if the need come they might be the bravest of heroes. But we mustn't sit and wait for these things to come to us. Other flags must have all the patriotism and all the spirit of the ones that lead to the battles. So must every little boy and girl live to honor those who fought for them. Thus they will never disgrace the land their grandfathers and great-grandfathers gave their lives for."

THE TRIBUNE'S Daily Short Story

A CAPTIOUS MAIDEN

By BRYANT C. ROGERS.

Copyright, 1914, by the McClure Newspaper Syndicate.

John Fletcher, farmer, and his wife didn't say to each other or to any one else that their daughter Millie was capacious. They never used the word, and didn't exactly know its meaning. What they said was:

"Isn't that child (and later on the girl) plaguier odd in some of her ways?"

The older the girl grew the more that plaguier odd trait developed, and at sixteen, had she lived in a town, she would have been referred to as a capacious girl and a coquette. Her capaciousness up to that time had worked no great harm, but now it began to bring trouble.

All at once it became apparent that Miss Millie and the hired man were in love. She was sixteen and he forty-three. He was a steady-going old bachelor, and he looked upon the girl as a child, and he had to be told in so many words that she was in love with him. He was hoeing corn one day as steady as an old clock, and wandering in a dreamy way why a farmer's hired man wasn't born with two backbones, so as to let one rest while the other worked, when Miss Millie came down from the house and began:

"Peter, I am in love."

"Good Lord!" he exclaimed, as he gave a jump.

"Yes, I am, and who do you think the feller is?"

"I can't think."

"It's you!"

"Bless my soul!"

"I thought it would jolt you. Yes, Peter, you are the man."

"But—but—"

"Kneel right down and propose to me."

"But I can't. I don't. Your folks wouldn't let us marry."

"It isn't for them to decide. Do I get a proposal, or do you scorn a girl's love?"

"I thought they always courted first," was stammered.

"Come to think of it, I guess they do. We will sit out on the back steps in the moonlight to-night and court."

At 8 o'clock that evening the farmer saw them sitting out there in tender attitudes and asked of the wife:

"What in thunder is the gal up to now?"

"Oh, that's some of her odd notions," was the reply.

"But she can't be in love with Peter."

"Can't she?"

"But has he got the cheek to fall in love with her?"

"How do I know?"

The wife refused to say a word to the girl and the courtship continued two or more evenings. During these evenings Peter had proposed and been accepted, plans had been laid

OPPOSED PROBE TO SAVE STOCKHOLDERS

Attorney General McReynolds.

Attorney General McReynolds, whose opposition to the interstate commerce commission's probe of the New Haven railroad at first caused adverse criticism, has given an explanation of his attitude satisfactory to President Wilson. Mr. McReynolds says he opposed the present inquiry because it probably will prevent the consummation of plans which the department of justice has for the dissolution of the New Haven system in such a way as to save stockholders from the loss that he feels would result from a receivership.

as to where they would live, and a bridal tour had almost been decided upon when the farmer decided to put his foot down. There was no need of action on his part, however. Miss Millie came to him and said:

"Father, I wish you would give old Peter the bounce."

"Why, what for?"

"Because for three days I was in love with him and got him to propose marriage."

"What happened?"

"I don't know, but I wouldn't marry him if he was the last man on earth." Bounce him and bounce him quick!

The father went out and found Peter sitting on the barnyard fence and waiting to say to him with sheepish air: "David, can I speak with you a moment?"

"—I love your daughter, and—"

"You pack your duds and git!"

And he "got," with Miss Millie looking on and laughing. That was a specimen of what her parents called her oddity. In two years she fell in love with five different hired men, and got them all bounced. There were other farmers around, and they had sons who fell in love with the girl and reached a certain point, which was generally the end of the first week, and then they were suddenly and promptly told to make their skidoo. There would be broken hearts and threats of suicide, and mothers kept on the jump as administer catnip tea.

"What in blazes do you do these things for!" shouted the father as the girl's thirteenth victim passed out of the house with his hopes crushed to earth.

"I don't know, father. I like 'em at first sight, but in about three days they begin to make me very tired."

"But you can't go on this way."

"No?"

"You'll turn down some chap who'll commit suicide over it, and there'll be the deuce to pay."

"Yes, I suppose so."

Miss Millie had added the scalp of the sixteenth victim to her collection when, one day, a young man hitched his horse and buggy at the gate and entered the house to ask for the farmer. It was the girl who answered that her father was down in the field, and who gave the thirsty stranger a glass of water.

"Suits me to a dot," said the young man to himself.

"I'll make him number seven-teen," said the girl to herself.

The stranger went down to the father and said: "I have just seen your daughter. I want her for my wife."

"There's about sixteen as has

wanted the same thing."

"And have been all turned down? I have heard of it, but it doesn't scare me a little bit."

He gave his name.

"I'll be a good husband to her and a good son-in-law to you."

"Well, you can become a candidate," was the doubtful reply.

"And I shall win. Just let her think that I am out to buy a farm. I shall probably call daily for the next week."

"If you last that long, which some haven't."

Mr. Lorillard, as he gave his name, was invited to put his horse in the barn and to stay for supper.

Mr. Lorillard called the next afternoon and the next. At this later call he proposed a buggy ride next day. When the lovers were hidden by the dust cloud the farmer said to his wife: "The gal seems to take to that young feller."

"She has to the rest of them, too."

"But I kinder think she's more in earnest."

"I hope so, but I doubt it."

"Mebbe they've gone away to git married."

"And mebbe June bugs will be flying around next January."

Mr. Lorillard hadn't proposed yet, though three full days had passed. They were hardly out of sight of the farmhouse, however, when he turned to Miss Millie and said:

"Girlie, I am sure we love each other."

"Yes?"

"Will you be my wife?"

"If I'm not tired of you in a day or two more!"

"Get up!" he said to the horse as he put on the gad.

"What you stopping here for?" was asked when they had gone two miles and halted at a farm house.

"This is Justice of the Peace Bronson. We'll get out."

"But what for?"

"You'll be my wife in ten minutes!"

"But—but—"

"I know it's never got this far with any of the rest of them, but they were a lot of chumps and didn't know how to get the best little wife in the state. Come on."

"Millie, how did it come about?" asked the mother when they had got back home.

"Why—why, he didn't give me time to get tired of him!" was the answer.

And she isn't tired of him yet, though several years have passed.

Will Colored Wigs Be Popular?

We believe we are really safe in saying that the colored wig rage will never gain a strong hold among the women who, by proper care, have kept their own hair beautiful and to whom the idea of covering the head with a heat-producing, blanket-like article is ridiculous. These women realize what sunshine and fresh air mean to hair beauty and that frequent shampooing is necessary during hot weather, though improper shampooing robs the hair of its life and beauty and causes it to grow thin and straggly. To avoid any unhappy condition of scalp or hair, use an economical home-made shampoo, which you prepare very quickly by just dissolving a teaspoonful canthrox (which every drug store carries) in a cup hot water and pouring slowly on the head as you rub briskly. This makes a wealth of rich, cleansing lather that greatly invigorates both scalp and hair. Canthrox shampoos will soon restore the fluff and lustre to the dulled hair and encourage a beautiful growth.

WHO'S TO FEED THE ARMY MEANWHILE?

MINNEAPOLIS, May 26.—Colonel C. D. McLennan's army of the unemployed, all that is left of Kelly's famous California army, consisting of 105 officers and 63 privates on their way from the Pacific coast to Washington, is up against it. The "army" was dumped here by the Chicago, Milwaukee & St. Paul railroad on which they came in three box cars from Butte, Mont.

Sheriff Langum ordered the "army" to move on. The railroad refuses to haul the army farther. The "army" says it cannot walk because it has chilblains.

The Milwaukee line says it will not haul the army further.

Sheriff Langum pointed out that there is a \$50 fine in this county for any person who brings in any feeble minded or poor person and threatens to bring 164 suits against the Milwaukee road.

The road said it did not bring the army here and the army produced a Milwaukee line way bill showing the consignment of "three carloads of garbage" from Butte, Mont., to Minneapolis over the Milwaukee. The road says the way bill was forged.

RUMOR WHITMAN IS AFTER BIG MEN

Reported He May Offer Life to Becker if Latter Will Tell All He Knows

NEW YORK, May 26.—With Charles Becker, convicted of the murder of Herman Rosenthal, in the toms awaiting sentence next Friday, the staff of District Attorney Whitman today was reported hard at work obtaining evidence on which Jack Sullivan, Becker's star witness, may be placed on trial as an active aid in the gambler's murder.

Another angle of the case, which may prove sensational, was talked of today. Whitman, it is known, "wants" some big figures in the police force who are believed to have profited by Becker's graft operations. It was reported in the police circles that Becker may offer to make a clean breast involving these persons, if Whitman will recommend that his sentence be commuted to life imprisonment.

DYSPEPTICS WARNED BY GERMAN PHYSICIAN

Prof. Riegel, World-Famous Authority on Stomach Diseases, Points Out Lurking Danger

Franz Riegel, Professor of Clinical Medicine in the University of Glessen, pronounced the world's greatest authority on diseases of the stomach, makes the positive statement that pepsin must not be used in treating acidity of the stomach. Millions of people are taking all sorts of dyspepsia tablets because they contain pepsin which affords slight temporary relief. But every dose contributes to serious harm in time. What is needed is something to neutralize the excess acid. The best thing for that purpose is ordinary bisurated magnesia. You can get it at any drug store for a few cents. Take a teaspoonful in a quarter glass of water after each meal. You will get immediate and complete relief with no danger or bad after effects. Authorities agree that acidity is the cause of nearly every form of stomach disorder, and if not checked it is likely to lead to stomach ulcers and cancer.

**A NEW PLAN OF
CITY GOVERNMENT**
(By Fred W. Wylie.)

A new plan of city government, a combination of the commission and city manager plans, absorbing the separate school administration now maintained, and effectively developing the civic center idea, is the recommendation that has been made by Edward J. Ward, advisor in civic and social center development of the extension division of the University of Wisconsin, to the city of Ogden, Utah.

At the recommendation of United States Commissioner of Education Claxton, Prof. Ward was named one of two, the other being W. G. Roylance, professor of sociology of the University of Utah, to make a survey of the school system of Ogden from the community point of view. Prof. Roylance joins with Prof. Ward in his recommendations. The members of the present city commission and of the school board were unanimous in their approval, and the next legislature of Utah will be asked to authorize the plan. It is likely that this will become known as the Ogden form of city government, and that it will be as famous and as much copied as the Galveston or the Des Moines plan.

Ogden is a city of about 30,000. The survey followed the usual school squabbles, and differences between the school board and city commission, and it was determined to learn the fundamental fault in the system. The key to the books and affairs of the entire city government was turned over to the investigators, and the recommendations contain a complete review of the financial and social conditions and needs of the city.

The report recommends that the duties of the school board be taken over by the city commissioners, who under the Utah law are three in number, the mayor being head of the financial department, and the other departments being public property and public safety. Prof. Ward points out that the entire school administration comes within these departments, and that the unification will secure efficiency without friction and needless expense. The report says:

"Because of the financial saving and the business efficiency that would result from unification of administration; because the public school system cannot succeed even in its prime function of effectively training children for citizenship and promoting their morality unless the adults and older youth of the community make use of the school houses as centers of organized civic expression and wholesome recreation; and because this full use of the public school system of the machinery of the city's comprehensive self organization depends absolutely upon the unification of its municipal and public school administration; therefore we find and report, after careful study of all the elements of the situation and after consulting officials and other responsible and well in-

formed citizens, that the key to the solution of Ogden's problems, civic, moral and economic, is the consolidation and identification of its municipal commission and its board of education."

The city manager idea comes into the report in the new functions of the school superintendent, who while he will not be a city manager, "if the plan is adopted, it will be seen by students of municipal administration that the advantages of both the commission form and the city manager plan are secured—the distribution of functions which belongs to the commission plan is preserved, and at the same time, the centralization of those responsibilities that should be centralized with the consequent unification of the work of the whole body is secured. It has all the advantages of the city manager plan, without carrying too far the centralization of responsibility, as seems to have been done in the cities and towns that have gone to this extreme in striving after unity in municipal administration."

A civic secretary also is recommended, through whom real civic center work will be done, he being the clerk of the city community, and the school principals or others being the various neighborhood clerks. The idea entails a thorough organization for neighborhood discussion and civic assembly, on the idea of the old New England town, where the civic clerks shall be under the people and not over them, and the community shall discuss its problems and prepare to intelligently express its desires, the school houses to be the polling places.

The great saving in money from the plan presented is pointed out from the elimination of duplication in public property and public administration. The report concludes:

"With the progress of the investigation, it became increasingly apparent that the educational, civic, recreational and economic needs of Ogden can be supplied only by the economizing of money and effort. Thus the unification of the city administration by combining the work of the school board with that of the municipal commission, the key to the whole situation, came to be seen for what it is, not only an ideal arrangement, but an immediate necessity."

Prof. Ward is the originator of the social center idea, starting his study and advocacy of this movement in Rochester, New York. He is recognized as its national leader, and with the coming of the initiative, referendum and recall, this movement is of immediate vital importance to successful democracy. Its growth has spread to every corner of the country, and it has become a great national tendency. It is another instance of the service, real and vital, being rendered the commonwealth by the state university.

Realizing the significance of this movement and its necessity in making the initiative, referendum and recall a success, and the national leadership of Professor Ward and the consequent advantage of Wisconsin has with him on her university staff to make quickly successful the instruments of democracy, which the special interests failing to defeat will hope to see speedily discredited and repealed, it is inevitable that a fight on this department of the university will be made by special interests, for as President Wilson said in a recent speech on this subject "there are scores of things that must be put a stop to in our politics that will stop the moment they are talked of where men will listen." The social center is inevitable as the working machinery of the initiative, referendum and recall, which make the people the legislature, for a legislature must assemble and discuss as well as vote. The attempt to block the social center movement will illustrate the lengths to which the enemies of democracy are pressed to go in their desperate stand against making the unification an institution of service in the new democracy.

The rule is that a play indorsed by the clergy doesn't pay very well.

Shortly before the psychological moment came for young Bryan to let loose the floods of his oratory an old countryman approached him mysteriously, and silently led him around to the back of the schoolhouse. There he drew from his pocket a bottle of whisky and pronounced the classic command:

The Wrong Quarter
Before the railroads had penetrated South Florida, land was very cheap and passed from one to another for a mere song, as the saying is. At one time an old Florida cracker went before a notary to make an affidavit, and after the paper had been prepared asked what the fee was.

"Oh, about a quarter," replied the notary indifferently.

"My gracious! ain't that purty steep?" asked the cracker.

"No; that's the least charge. Usually we get a half."

The cracker went away, and the next day returned with a deed to a quarter section. He handed it to the notary, who read it over carefully.

"I meant 25 cents," said he, passing the deed back to the cracker.—Judge.

Whereupon Mrs. Newlywed glanced reproachfully at her husband, for he was giving away the first fruits of her culinary studies at the cooking school.

O' Jamestown**

Presently I turned into Cheapside. Here were the most splendid houses I had yet seen. They were of great height, many of them being five stories; built of ornamental brick and timber; their gables faced the street, and each story projected over the one below, which gave them a most imposing appearance. In every shop were 'prentices who called their master's wares with tireless and brazen lungs. I saw those whom I took to be grave city merchants, fine ladies, and a goodly concourse of foppish gallants, attended by servants who carried their swords, which I thought a vastly lazy practice.

I found the Three Tuns in Newgate, which Tom Preston had so highly recommended; the landlord of which even professed to remember Tom himself, when I took occasion to speak of that young gentleman to him, though I doubt not he was more civil than truthful. After I had changed my traveling dress for an apparel that I deemed more modish, and after I had supped, I sallied forth to find the house of Lady Bellesly in Aldersgate Street. While I had been thus busy, night and a measure of silence had settled down on the city, as I discovered when I ventured abroad on my errand. There was now a continual passing of stately coaches, and I fancied the occupants of these were on their way to balls or masquerades, or perhaps even to the king's own palace. Before the doors of many of the houses and shops were suspended gaily coloured lamps, and down some of the lanes and lesser streets blazed bon-fires, as had become the custom since the plague, to clear the air.

By dint of inquiry I finally made my way into Aldersgate Street, and here a man, who by his dress I took to be a groom, civilly pointed out a very great house where he said resided Lady Bellesly. I went quickly up the steps and my knock brought a red-faced serving-man in fine livery to the door. He told me that her ladyship and her ladyship's niece were abroad that night. I had not reckoned on this disappointment and I went sadly away to wait for the morrow.

I strolled back to Cheapside and watched the crowds for a little time, and then home to my inn and to bed. I slept ill and the roar of the city roused me early. I dressed at leisure, breakfasted, and a little after nine o'clock started forth a second time for Aldersgate Street.

The same servant I had seen the night before answered my knock; he now looked me over rather suspiciously, but he showed me into a small waiting room and there left me to take my name to Mary. I had not long to wait, for I heard a light step in the hall, and Mary herself came quickly into the room.

"Dick! I could not believe it was you!" she cried.

And then she said no more, for I had lifted her in my arms, and held her against my heart, whilst I vowed to myself that it would go hard with him who should seek to take her from me, or deprive me of the love which I could see in the dark eyes that were raised to mine.

First she had me tell her of my mother, and father, and Betty.

"And now you, Dick—and what has brought you to London?" she asked.

"It was your last letter that fetched me here in such haste, sweet!" I said.

"Oh, Dick—dear Dick, I have not even dared to dream that you would follow me here!" she whispered.

"Better that I, I'll not leave London unless I take you with me!" I said, drawing her to me again.

"What of this Nevil Maxwell?"

"I have given no one reason to think I could ever care for him; indeed, Dick, I have told her ladyship I could never love him—"

"And how does she take that?" I asked.

"She only laughs at me, for she will take nothing seriously that I say to her in this matter."

Here the curtains at the door were drawn aside, and a lady swept into the room whom I at once surmised could be none other than Mary's protectress. She paused on seeing me, in real or affected surprise.

"Your pardon, my dear," she said very sweetly, addressing Mary. "I did not know but you were alone," and she gave me a swift scrutiny.

"This," said Mary, "is Mr. Farra-

day. Dick, my aunt, Lady Bellesly."

Her ladyship swept me a courtesy.

"I am charmed beyond expression to meet one of whom Mary has so often spoken," she said graciously, but for all her fair words she did not look charmed. She turned to Mary.

"My dear, have you forgotten? I am sure Mr. Farraday will yield readily to the claims of a prior engagement," she smiled at me.

"Surely, madame," I said, for I aware she desired me to be gone.

"You will come again, Dick?" said Mary wistfully.

"Mr. Farraday is in London for some time?" asked Lady Bellesly.

"Until the business that has brought me here is settled, madame," I said, and I left her to speculate on the nature of that business.

"Then we may hope for another call," she said.

I bowed my thanks and bowed myself from the room, but Mary followed me into the hall.

"Come in the morning, Dick—before ten; I shall be alone then," she whispered.

I could only press her hand, for the servant had swung open the street door, and a moment later I found myself going soberly down the steps, mightily depressed by the brevity of my call and the abruptness with which her ladyship had terminated it.

With a whole day and night before me, I bethought me, rather shamefacedly, that Tom Preston had advised me to see the players at the Globe Theatre on Bankside. The bull and bear baiting I decided to forego, having little taste for sport of that kind.

I dined that day at The Swan in Dowgate, and thence set off for Queenhithe, where I took a boat for Bankside on the Surrey shore. There were a great many people setting forth on the same errand as mine, as I judged, for there were many boats on the river; and as these

passed each other the watermen exchanged jests and strong words. I was put ashore at the Falcon stairs before the Falcon Tavern, and had naught to do but follow the crowd to a great ten-sided building having a thatch roof. This was the theatre, as one might know by the figure of Hercules supporting a globe above the entrance way. The thatch roof only covered a part of the building, I discovered when I had paid my shilling, which bought me a seat in the third and lowest of the three circular galleries which were built out from the wall. These galleries and the stage were under the roofed part, but the middle space or yard, as it is called, where the poorer sort of people sat, was open to the sky. (To be Continued.)

MEAT INJURIOUS TO THE KIDNEYS

Take a tablespoonful of
Salts if Back Hurts or
Bladder bothers.

We are a nation of meat eaters
and our blood is filled with uric acid,
says a well known authority, who
warns us to be constantly on guard
against kidney trouble.

The kidneys do their utmost to
free the blood of this irritating acid,
but become weak from the overwork;
they get sluggish; the eliminative
tissue clog and thus the waste is re-
tained in the blood to poison the en-
tire system.

When your kidneys ache and feel
like lumps of lead, and you have
stinging pains in the back or the
urine is cloudy, full of sediment,
or the bladder is irritable, obliging
you to seek relief during the night;
when you have severe headaches,
nervous and dizzy spells, sleepless-
ness, acid stomach or rheumatism in
bad weather, get from your pharma-
cist about four ounces of Jad Salts;
take a tablespoonful in a glass of
water before breakfast each morn-
ing and in a few days your kidneys
will act fine. This famous salt is
made from the acid of grapes and
lemon juice, combined with lithia,
and has been used for generations to
flush and stimulate clogged kidneys,
to neutralize the acids in urine so it
is no longer a source of irritation,
thus ending urinary and bladder dis-
orders.

Jad Salts is inexpensive and can-
not injure; makes a delightful ef-
fervescent lithia-water drink, and
nobody can make a mistake by tak-
ing a little occasionally to keep the
kidneys clean and active. Agent,

NOTICE OF APPLICATION TO COUNTY COURT.

State of Wisconsin, County Court
La Crosse County, ss.—In Probate.

Notice is hereby given that at a
special term of the County Court, to
be held in and for said County, at
the Court House, in the City of La
Crosse, in said County, on the fifth
Tuesday, being the 30th day of
June, A. D. 1914, at 10 o'clock A.
M., the following matter will be
heard and considered:

The application of Barbara Miller,
administratrix of the estate of
John Miller, late of the Town of
Shelby, in said County of La Crosse,
deceased, for the adjustment, settle-
ment and allowance of her final
account as such administratrix and
for the assignment of the residue of
the estate of said deceased to such
persons as are entitled to the same.
Dated May 25, 1914.

By order of the Court,
JOHN BRINDLEY,
County Judge.

DENIAL OF GUILT ADDS TO SENTENCE

Pleading not guilty to the charges
on which they were arrested,
caused Judge John Brindley to give
C. B. Knudson and Jack Harrington
five more days than usual in the
county jail, but the same procedure
on the part of Frank Foley and Wm.
Purtell led to their discharge when
enough evidence could not be found
to convict them.

Knudson was arrested for beg-
ging from passenger trains. He was
sent to the county jail for 35 days.
The court sentenced Harrington,
charged with vagrancy, to a similar
term. Foley was also brought into
court for alleged begging from pas-
senger trains, but he was discharged
because the evidence was not
sufficiently strong to convict him.
William Purtell, an alleged vagrant,
was discharged for the same reason.

You shouldn't worry, although we
understand that advice isn't much
of a preventive.

"Gets-It" for Corns on Your Piggie-Wiggies

Quit Puttering With Corns. Use This
Sure, New-Plan Corn Cure

A few drops of "GETS-IT," the
biggest seller in the world today of
any corn remedy, is enough to spell
positive doom to the fiercest corn that
ever cemented itself to a toe. It's

good-bye Johnnie. You apply "GETS-
IT" in two seconds—no fussing with
plasters that don't stay put, with
with salves that make corns "pull"
and make the toe beefy and raw,
with knives, scissors, razors and dig-
gers that make corns grow faster and
that may cause blood poison from
corn-cutting and corn-bleeding.
"GETS-IT" shrivels up corns, they
come right off. That's the new prin-
ciple. It's just common sense. No
more corn-pains. "GETS-IT" is safe,

FIREMAN DROPS HEAT PROSTRATED

Ingvald Larsen Drops while
Firing Boiler at the
Grand Crossing
Shops

Ingvald Larson, fireman of a sta-
tionary boiler at the Burlington
shops at Grand Crossing, was over-
come by the heat yesterday after-
noon, while at work in the shop. Dr.
Suiter was called, who took the man
to the La Crosse hospital, where he
lay unconscious until late in the eve-
ning. His condition today is report-
ed much improved.

Larsen was at work firing a sta-
tionary boiler in the machine shop.
The intense heat of yesterday, which
mounted to 86 degrees in the shade,
and the heat of the boiler combin-
ed to cause his collapse. Fellow
employees saw him as he fell, and im-
mediately called a doctor, in the
meantime doing all in their power to
bring the man to consciousness.

WOMAN POSED AS MAN FOR 13 YEARS

Cora Anderson, the Man-
Woman, Will Appear at
the Majestic to Tell Her
Story This Week

Cora Anderson, the woman who
successfully impersonated a man for
thirteen years, will be at the Majes-
tic Theater for four performances,
beginning Wednesday matinee. This
special engagement has been arrang-
ed by Manager Koppelberger after
days of negotiation with the Saxs
Amusement Co. of Milwaukee, with
which Miss Anderson has a contract.
Miss Anderson did a man's work
for thirteen years, supported a wife
during this time and married a sec-
ond a few weeks before her expo-
sure, this second marriage being the
cause of the exposure, the first wife
notifying the world that Miss An-
derson was not a man because she
was jealous of the second wife. In
order to marry the second time Miss
Anderson was compelled to submit to
the eugenic marriage law test.

Miss Anderson started life as a
trained nurse, being a graduate of
Provident hospital, Chicago. Donning
men's clothes and accompanied by
Mamie White, a former Wisconsin
school teacher, and also a nurse,
Miss Anderson went to Cleveland, O.,
where she worked in the Hollenden
hotel as a bell boy for two years.
Miss White worked as a woman. The
two then came to Milwaukee, and
Miss Anderson worked as a bell boy
in the Plankinton hotel for five
years, then became a clerk in the
employ of the Cutler-Hammer Co.,
where she worked for six years,
holding one position for four years
which six men had tried to hold dur-
ing a period of three months. Then
came the exposure by the first
"wife."

books show 400 former saloonists
as purchasers. Wholesale indict-
ments probably will follow. The
brewery agency is closed and 4,100
cases of beer will be destroyed.

A Remedy For All Pain

"The efficiency of any drug" says Dr. C. P.
Robbins, "is known to us by the results we
obtain from its use. If we are able to con-
trol pain and disease by means of any pre-
paration, we certainly are warranted in its
use. One of the principal symptoms of all
diseases is pain, and this is what the patient
most often applies to us for, i. e. something
to relieve his pain. If we can arrest this
promptly, the patient is most liable to trust
in us for the other remedies which will effect
a permanent cure. One remedy which I
have used largely in my practice is Anti-
kanna Tablets. Many and varied are the
uses. I have put them to the test on many
occasions, and have never been disappoint-
ed. I found them especially valuable for
headaches from improper digestion; also
for headaches of a neuragic origin, and
especially for women subject to pains at certain
times. Two Anti-kanna Tablets give
prompt relief, and in a short time the patient
is able to go about as usual." These tablets
may be obtained at all druggists. Ask for
A-K Tablets. They are also unexcelled for
headaches, neuralgia and all pains. We
also make Anti-kanna Salve; it is a won-
derful remedy for skin diseases.

KEOKUK, Iowa, May 26.—Fire
which broke out shortly after mid-
night last night destroyed the lum-
ber yards of the Harrison Box fac-
tory, containing half million feet of

Henderson Washing Machine com-
pany's plant adjoining. The loss is
estimated at between \$15,000 and
\$25,000.

WOMEN TO HELP PLAYGROUND WORK

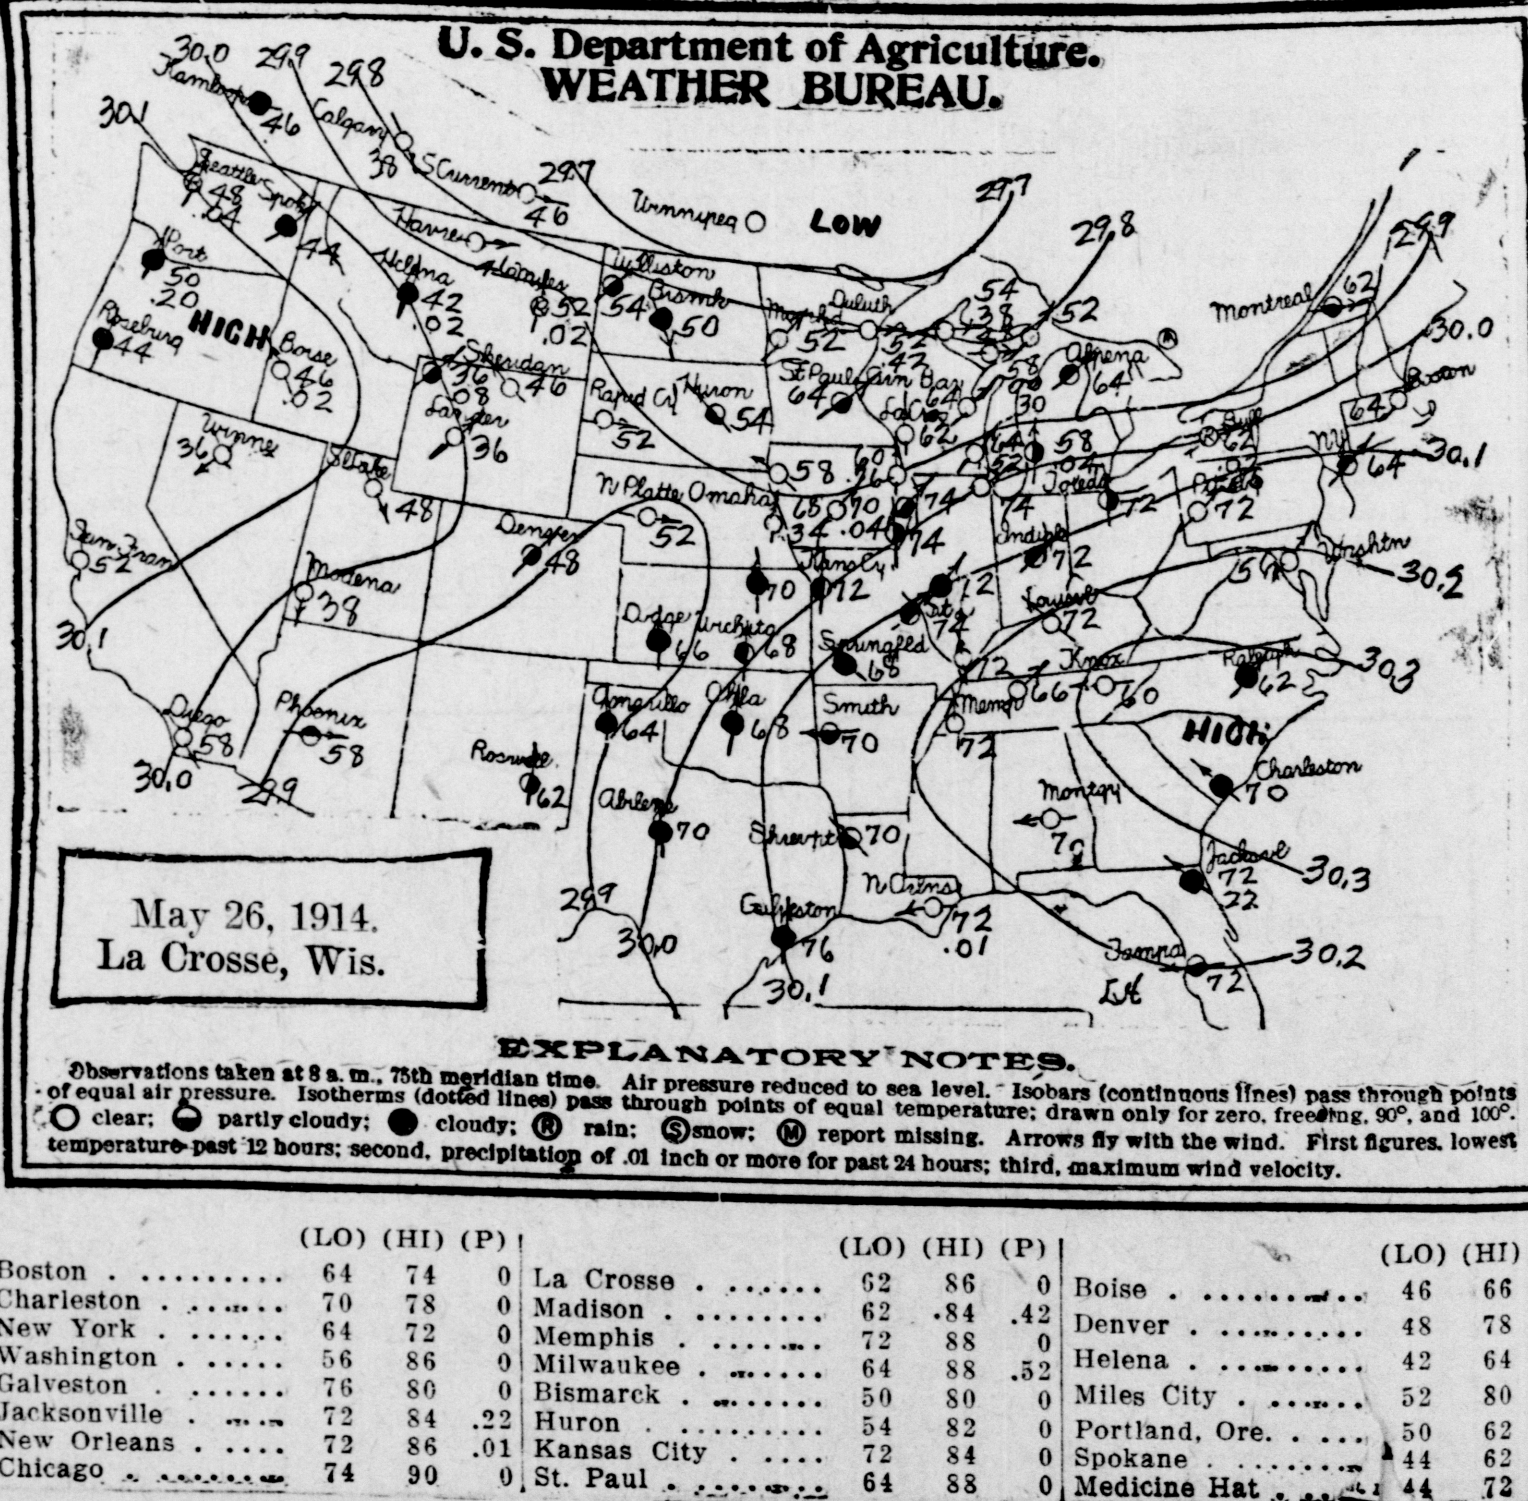

Four men and two women will
constitute the playground instruc-
tion force this year instead of just
four men, according to Park Super-
intendent J. H. Forrer. The work
will be carried on on the South side
on the West avenue and Adams
street grounds, and on the North
side at Copeland park.

Fred W. Dickens, who has been
playground director for three years,
will again have charge of the work
for the coming summer. It is in-
timated that Miss Frances Egbert,
1514 King street, will be one of his
instructors.

ULSTER TENSE BUT STILL QUIET TODAY

Armed Police on Guard in
Belfast and Tyrone in
Expectation of Up-
rising

LONDON, May 26.—With Dublin constables in Belfast and armed police watching the county council elections in County Tyrone, the situation in Ulster was tense today and he anxious eyes of the government were on the north of Ireland. To the surprise of the public, Ulster was quiet today, but it was feared that if the result of the Tyrone election went against the Orangemen, rioting and grave disorders might result. Bloodshed was a possibility. In Belfast three hundred constables, armed, were on guard, sent there from Dublin. In Tyrone the police were under instructions to carry their revolvers all day.

Parliament was not in session today, having adjourned until June 15, after the first reading of the home rule bill in the lords. The measure probably will come up for second reading and amendment about June 22.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's old Fa-
vorite Recipe of Sage
Tea and Sulphur

Almost everyone knows that Sage Tea and Sulphur, properly com-
pounded, brings back the natural
color and lustre to the hair when
faded, streaked or gray; also
dandruff, itching scalp and stops
falling hair. Years ago the only
way to get this mixture was to
make it at home, which is messy
and troublesome. Nowadays, by
asking at any drug store for
"Wyeth's Sage and Sulphur Hair
Remedy," you will get a large
bottle of this famous old re-
cipe for about 50 cents.

Don't stay gray! Try it! No one
can possibly tell that you darkened
your hair, as it does it so naturally
and evenly. You dampen a sponge
or soft brush with it and draw
this through your hair, taking one
small strand at a time; by morning
the gray hair disappears, and after
another application or two, your hair
becomes beautifully dark, thick and
lustrous.

FAVOR UNION OF ALL PROTESTANTS

Negro Synods in North
Lead Presbyterians in
Church Work Says
Report

KANSAS CITY, Mo., May 26.—
Action that may ultimately result
in a union of all protestant bodies
in the United States was taken up
last night by the general assembly
of the southern Presbyterian church,
when it adopted the report of the
committee having the matter under
consideration.

If the suggested plan is approved
the overture will be returned to the
next assembly where it may be
adopted. If adopted, it must then
go back to the presbyteries and can
become effective only when three-
fourths of them approve it.

CHICAGO, May 26.—Four negro
synods in the Presbyterian church
are leaders in church work, from
the standpoints of increasing
memberships and devotion to the
work, the committee on the Freed-
man's association reported to the
Presbyterian assembly today.

The anti-saloon league was denied
specific endorsement by the commit-
tee on bills and overtures, which
recommended, however, endorsement
of all temperance bodies.

ALLEGES DESERTION AND ASKS DIVORCE

Alleging that the defendant de-
serted her in 1910 and that she has
been unable to locate him since a
year after he left, during which
time he wrote her several letters, all
of which were from different cities,
Laura Hudson has filed a suit for
divorce from Loren Hudson through
her attorneys, Gordon & Gordon.
The plaintiff also asks that she be
given the care of their two children.

Teaching Backward Children.

Miss Elizabeth E. Farrell, super-
intendent of the ungraded schools in
New York city, says that the person
who is feeble in body may be restored
to normal health, and it is the same
with a person feeble in mind. The
school of the future, she says, will
cease talking about the weakness of
a child and will emphasize his
strength instead. Training will be
based on what we know to be good
for the individual child and not on
what we have always thought to be
good for children in general.

ASK WILSON TO GIVE EXEMPTION

Organized Labor Leaders
Ask Specific Freedom
from Terms of Sher-
man Law

WASHINGTON, May 26.—The
fight of organized labor for complete
exemption from the Sherman anti-
trust law, and all legislation supple-
menting it, was carried to the White
house today.

Representative Webb of North
Carolina, acting chairman of the
house judiciary committee, accom-
panied by Representatives Carlin and
Floyd, the sub-committee in charge
of the anti-trust bills now before
the house called to tell President
Wilson the labor men were insistent
that the Clayton bill must be amended
with the consent of the administra-
tion. They asked advice. The presi-
dent told them he would not permit
any change that would "erect a wall"
around labor unions and make them
immune from penalties for illegal
actions. He reiterated that house la-
bor leaders had accepted the Clayton
bill with a proviso included that
nothing therein should be construed
as affecting the legality of labor unions,
farmers' co-operative organizations
and the like. This was as far, the
president said, as he was willing to
go.

DISCOVERS LOT FOR ATTACHMENT

A lot in La Crosse belonging to
the Lathrop family, against whom an
action to recover about \$80 on a note
was begun by James L. Orr, was dis-
covered by Sheriff John A. Weber
and has been attached by him. The
action is against Dale Lathrop, Har-
vey Lathrop and Emma Lathrop, who
are no longer residents of La Crosse.
It is not known definitely where they
are, although it is said they are re-
siding in Minneapolis. Judge E. C.
Higbee ordered that any property
owned by the defendants in La
Crosse be attached and after an in-
vestigation Sheriff Weber found the
lot.

WASHINGTON, May 26.—Import-
ant dispatches from Generals Carranza
and Villa are in the hands of Sec-
retary of State Bryan. They were
sent from El Paso in code by George
Carothers, special representative of
the state department. They express
the exact position of the constitu-
tionalists toward the Niagara Falls
peace conferences.

Favor Mediation

While details were withheld today
it is understood that both Carranza
and Villa expressed hope that the Ni-
agara conferences would be produc-
tive of beneficial results. They are
said to have agreed to consider care-
fully all of the recommendations of
the mediators and to accept, for
themselves and their followers, at
least the principles of any settlement
agreement which eliminates Huerta
and re-establishes constitutional gov-
ernment.

The messages were to be consid-
ered by the cabinet today. It was
stated that Villa has sent word that
he and his troops expect to be in
front of Mexico City within a fort-
night.

HENRY P. LAWSON DIES IN WINNIPEG

Native of La Crosse Who
Was Business Manager
of Canadian Ball
Team Is Dead

Henry P. Lawson, business man-
ager of the Winnipeg baseball club,
and a former resident of La Crosse,
died in the General hospital at Win-
nipeg last night from hemorrhage of
the brain. He had been unconscious
since Friday.

Mr. Lawson, who was 36 years
old, resided in La Crosse up to about
four years ago. He was in business
on the north side for about five
years, conducting a clothing store at
731 Rose street, for about four
years. For a year he was in partner-
ship with Henry Nein, but after that
he ran the store alone.

While in La Crosse Mr. Lawson
played outfield for the north side
team and was considered a valuable
player. He was married to Miss Ev-
elyn Johnson of La Crosse before leav-
ing the city. From La Crosse Mr.
Lawson moved to Valley City, N. D.,
but for several years he has been liv-
ing in Winnipeg, where he has been
business manager of the baseball
club for two years. Last year his
team was seen in the city when they
played a series with the La Crosse
club. He is survived by Mrs. Law-
son.

LAW IS APPOINTED DIVORCE COUNSEL

D. S. Law was appointed divorce
counsel for La Crosse county yester-
day by Judge E. C. Higbee. Mr.
Law's appointment to this position
has been expected for some time, as
Attorney James Thompson, who has
been the divorce counsel for two
years, recently handed in his resig-
nation.

Mr. Law will assume the duties of
divorce counsel immediately. How-
ever, Mr. Thompson will have charge
of the divorce cases now pending.

About the Tango.

The tango mystery grows all the
time. It is asserted upon every hand
that nobody dances it. Still, the fu-
tor continues. Ask a dancing master
if he teaches the tango and he will
tell you no. He knows what it is—
he has seen it done by experts—but
he doesn't teach it. It is not a popu-
lar dance. There seems to be two
tangos. One is the tango which
comes to us from the Argentine Re-
public—a dance for experts—a slow,
difficult thing that is not worth doing
at all unless one can do it very well.
Indeed, the other tango is any new
dance—the Castle walk, the hesitation
waltz, or anything our fathers did not
dance. This latter is the popular
tango danced all over the country. It
is the one at which the people who do
not care about dancing continually
thunder. It is not the tango at all.
The tango is a myth, and they are
knocking the daylight out of it every
day.

Elaborate March of the
Hours Will Mark Nor-
mal Festival on
June 12

WILL BE HELD IN MYRICK PARK

The Hours in Grecian Cos-
tume Will Stage Sym-
bolic Exercises Typi-
fying Day

The annual fete of the normal stu-
dents and training school will be
held on June 12th in Myrick park
between the hours of five and six in
the afternoon. It is planned to have
the people of the city attend the fete
exercises and to have them bring
their lunches and spend the evening
in the park.

This year "The Pageant of the
Hours," will be presented. The
twelve hours of the day will be
shown in dance, song and action.
The king and queen of the pageant
will be chosen from among the
graduating class by the students of
the school. A contest has been ar-
ranged, honors to go to the author
of the best poem for the fete.

On Natural Stage

The setting for the pageant will
be a natural stage in Myrick park
and all of the characters will be
robed in Grecian costumes. The first
hour will represent the Dawn, with
drowsy bird notes and the wind shiv-
ering through the trees. A slow,
stately solo dance will be given by
Miss Emma Bjornstad, who will re-
present the Dawn.

The second hour will be the sun-
rise, with the Sun entering on a char-
iot and all the little sunbeams fol-
lowing. The flowers will open and
lift their heads to the sun as the
world awakes. The third hour will
be the Task hour, offering Golden Op-
portunity. An exercise by the boys
of the grades will typify this hour.
The fourth hour will be the hour of
Study. The fifth hour is the one of
Work. Labor will be represented in
exercises by the children. The sixth
hour will represent the noon, the
time of rest and quiet.

The Afternoon

The first hour of the afternoon
will be typical of work with its
bounty and wage. Play will be the
eighth hour and different games will
be played. At the ninth hour tasks
are over and will be celebrated by
the May pole dance. Sunset is the
tenth hour and is passed with the sun
going to rest and the flowers and
birds going to sleep. Twilight with
the Sandman will be the eleventh
hour and night with her fairies and
elves will be the last and twelfth
hour. Then the child who has been
watching the procession of the hours
falls asleep and her attendant wakes
her and takes her home.

Miss Grace Hildreth will be the
Sun and Night will be represented
by Miss Marie Hyde. Both with Miss
Bjornstad, are in the Physical Edu-
cation course.

Cruz

VERA CRUZ, Mexico, May 26.—
Extremely weakened, leaning on the
arm of a soldier, and showing unmis-
takable signs of sickness, John R.
Silliman, United States vice consul at
Saltillo, arrived here this afternoon
from Mexico City. Mrs. Silliman did
not accompany him. She still is in
Saltillo, under the care of the British
consulate. Because of the fight-
ing around the town it was deemed
unsafe for Mrs. Silliman to leave.
It was with difficulty that Silliman
made his way across the three mile
break in the railroad outside the
American lines. A stretcher was of-
fered but Silliman refused to be car-
ried.

LOWRY MEETING FAILS

Miss Anna Lowry did not fill her

hall Friday and Saturday. The rea-
son assigned is that, following her

for an engagement made by an en-
thusiast in the ranks.

HOTTEST OF YEAR

States weather bureau regis-
tered 90 in the shade at

mometers registered as high
as 100. The streets were
deserted as a result. The

William H. Pulliam of Pulaski, Va.,

the way to Pulaski for interment.

When Pulliam's father, George

said: "He gave his life for his coun-

Why Mohammedans Prefer Fleshy Women

In Persia and Turkey in Europe,
in fact in every country under the
influence of the Koran, fat is one of
the chief requisites of beauty, be-
cause they are a lower type of civi-
lization, in which physical and men-
tal laziness are natural. This makes
for weight in all classes and so de-
termines the national beauty type.
But in every other part of the world
the slender figure is preferred and,
of late years, the slender form is pos-
sible without making yourself miser-
able by dieting or indulging in vio-
lent exercises to reduce your fat.
Make up and take this simple reduc-
er and your weight will soon be just
where you want it. Dissolve 4 ounces
parnotis (which every good drug-
gist has in his store) in 1 1/2 pints
hot water; when it cools strain and
take a tablespoonful before meals.
This parnotis reducer acts gently, is
quite harmless and entirely satisfac-
tory results are quickly attained. It
leaves the flesh firm and well molded.

Aged, Wrinkled Faces Easily Rejuvenated

An aged face is often only a mask
to a comparatively youthful person.
Beneath is a countenance young and
fair to look upon. It's a simple mat-
ter to remove the mask. Ordinary
mercolized wax, to be had at any
drugstore, gradually absorbs the
worn-out surface skin; in a week or
two the user has the loveliest pinky
white complexion imaginable. An
ounce of the wax usually is suffic-
ient to complete the transformation.
It is put on at night like cold cream
and taken off in the morning with
warm water.

This remarkable treatment is in-
variably effective, no matter how
muddy, sallow or discolored the
complexion. Freckles, moth-patches,
liver spots, pimples, blackheads and
other cutaneous blemishes, naturally
vanish with the discarded skin.
To remove wrinkles, here is a re-
cipe that cannot be too highly re-
commended: Powdered saxolite, 1 oz.,
dissolved in 1/2 pint witch hazel. Use
as a wash lotion. It acts instantane-
ously and is wonderfully effective.

A "nest" of blue birds, the Jun-
ior auxiliary of the Camp Fire girls,
has been organized with Miss Eliza-
beth Bell as guardian. The work fol-
lows lines similar to that of the
Camp Fire for girls and the society
of Boy Scouts for boys. Twelve girls
have been taken in as members.

Repairs have been made on the
building of Bickel's wholesale bak-
ery and a number of new machines
installed recently, among them one
which wraps and seals the loaves by
electricity. All the work of the es-
tablishment is now done by machin-
ery, electricity furnishing the motive
power. The business of the company
is steadily increasing. They are at
the present time shipping to over fifty
towns in northern Iowa, south-
western Minnesota and southwestern Wis-
consin.

With the fall of the river local
fishermen have found excellent fish-
ing in the lakes and sloughs near
town. Large strings of bass, perch
and sunfish are brought in daily.

The McGregor baseball manage-
ment has announced the following
schedule of games: May 30, they will
play Lansing at Lansing; May 31,
Waukon at McGregor; June 7, El-
kader at McGregor; June 14, Lansing
at McGregor; June 21, Park Hills
of Dubuque at McGregor. The home
team has won easily in the three
games played against Elkader, Lan-
sing and Lynxville.

Mrs. John Lawler and daughter,
Miss Nellie Lawler of Kansas City,
who have been spending a few days
in Prairie du Chien, spent a part of
Sunday with friends in McGregor.
Mrs. Lawler is the widow of John
Lawler, for many years one of the
best known and wealthiest men in
Prairie du Chien and along the upper
river. The pontoon bridge between
North McGregor and Prairie du Chien
was built and owned by him for many
years. Some years ago the fine old
family home was sold as a sanitar-
ium and Mrs. Lawler moved to Kan-
sas City.

W. H. C. Elwell in the interest of
the Archeology Society of Wisconsin
has been exploring some of the In-
dian mounds in this vicinity. On an
island just north of Clayton a group
of eighty-seven were located by him
on Sunday. They are for the most
part linear and conical mounds
though quite a number of animal and
bird mounds are in the group. It is
undoubtedly one of the most impor-
tant groups on the Upper Mississip-
pi.

Troublesome Hairs on Your Face or Neck

(Beauty Notes.)
A thick paste made with powder-
ed delatone and water, and applied to
objectionable hairs for two or three
minutes, when removed will take
every trace of hair with it and leave
the skin firm and free from blemish.
After this treatment has been em-
ployed, the skin should be washed to
remove the remaining delatone. This
is quick, harmless and certain, but to
avoid disappointment, care should be
taken to see that it is real delatone
you get.

Millions of people who endure daily
torture from sore feet will welcome the
information that there is now a simple
treatment that positively and quickly
cures foot ailments of all kinds. You
can say goodbye to corns and callouses;

ment works right
through the pores
and removes the
cause of the trou-
ble. Use it once
and your feet feel
delightful; use it
for a week and
your foot troubles
will be a thing of
the past. Dissolve
two tablespoonfuls of Calocide compound
in a basin of warm water. Soak the feet
in this for full fifteen minutes, gently
rubbing the sore parts. Amazing results

JUANITA

A Love Song of Fifty Years Ago

In the soft twilight, or as the deep-
er shadows gather, the song of
"Juanita" always seems to soothe.

The gifted authoress of this popular
song was Mrs. Norton, a grand-
daughter of the famous Richard
Brinsley Sheridan, born in England
in 1808. She married young, but it
proved an unhappy union, and a di-
vorce suit followed, in which the
composer of "Juanita" vindicated
herself and led in a crusade against
the almost barbaric disabilities which
English law and practice then im-
posed upon an English wife, becom-
ing virtually the founder of the mil-
litary suffrage movement in England
today. Her songs of "Bingen on the
Rhine" and "Juanita" were the most
popular. She died in 1877 and lived
to hear the echoes of her plaintive
"Juanita" come to her from nearly
every civilized country in the world.

This celebrated melody is to be
found in "Heart Songs"—The unriv-
aled song collection now placed be-
fore its readers by this paper—at
practically the cost of printing. The
coupons elsewhere in today's issue
explain the generous offer.

REFUSES MILLIONS TO KEEP OCTOORON ACTRESS AS WIFE

MILWAUKEE, May 26.—William
Robertson, 25, claiming to be the
son of the late William Robertson of
Montreal, today declared he had re-
jected an \$18,000,000 share in his
father's estate because he would not
give up his octooron wife.

The young man claimed to be the
grandson of George Ross Robertson,
once associate of Lord Strathcona.
Robertson said here that his wife
had been an actress but that she had
given up the stage when his relatives
tried to force a separation.

While here Robertson received a
telegram from relatives asking if
the report of a separation were true.
It was that which gave publicity to
his story.

MAY CONFESS HE HID STRIKE LEADER

DENVER, Col., May 26.—Lieut.
Carl E. Linderfelt, one of the prin-
cipal leaders at the recent battle of
Ludlow, when nineteen strikers,
women and children, perished, may
plead guilty to one of the charges
pending against him when arraign-
ed before the military court martial
at the state rifle range there.

He is said to be considering such
a plea in connection with the
charge that he struck Louis Tikas,
leader of the Greeks at Ludlow, over
the head with the butt of his rifle so
hard that he broke the stock. He is
expected to claim justification. Tik-
as was afterwards shot to death by
soldiers.

Meanwhile efforts to settle the
Colorado strike by the joint commit-
tee appointed by the special session
of the legislature recently continue.

EVANS AND SOLIE TO GO TO ST. PAUL

Local Handball Champions
to Play Capital City Team
in Game for Title on
June Sixth

Arthur Evans and Theodore Solie, who hold the handball championship of the Y. M. C. A. will go to St. Paul on Saturday, June 6, to meet the champs of that institution in a game for the title in the afternoon. After many preliminaries the title game was arranged, the local boys being eager to meet the northern players as they are confident that they can beat them.

Evans and Solie form a strong team as they plainly demonstrated in the handball tourney this winter when they won out. The St. Paul champions are also fast and clever but the local boys are eagerly awaiting the battle. Although Evans and Solie will be playing on a floor which is new to them, and a court larger than the local one, they feel confident of putting up a great game.

The Real Irishman.

Canon Hannay lectured in London the other day on the stage Irishman, which is not, he says, a bit like the real thing. Irishmen do not drink with careless bonhomie, with a jest on the lips and laughter in the eye, he said. They do it with a certain shamefaced deliberation, and they do not sing. As a rule a drunken Irishman staggers silently home, and if he opens his mouth at all it is to talk serious speeches about politics or religion. Irishmen do occasionally borrow money, but not with the genial air of conferring a favor on the lender. They do it with groveling servility, declares Canon Hannay.

The man who never becomes discouraged is the man who gets there.

IN BOYVILLE

WATCHING THE SCOREBOARD BY HAL SHERIDAN

Homeward bound to the head of the heap, the Mack men grabbed one from the Browns yesterday, moving to within eleven points of Detroit. Pennock fanned twelve.

Walter Johnson moved the Senators even closer to the Tigers by beating Jennings' crew with ease. His shipmates gathered fourteen smashes off three Detroit twirlers. The Pirates sputtered on ahead in the National league fight, young Wagner's single winning the game from Brooklyn.

Loving Art Little, the Cubs drove Al Demaree cartoonist-twirlers, off the slab and back to the pen and ink, Larry Cheney, meanwhile, mowing down the Giants.

Vic Saier, whose work down at first has excited the bugs, held up the rep by slashing out a double and triple.

What Federal league hitters did to Russell Ford once on the big time circuit was considerable abandoned. The Kansas City Packers scattered Ford's curves all over Buffalo.

Roger of the Highlanders handed the Sox yesterday's affair. He dropped a throw from the outfield, permitting Weaver to count with the lone tally.

Dolan, Cardinal third sacker, helped the Boston Braves to their win, his error enabling Stallings' crowd to push over two runs.

The Naps acted like a real ball team. With only five bingles they sacrificed at the proper times and won from the Red Sox.

Charley Herzog used up a couple of teams against the Phillies but still the Reds couldn't win.

RITCHIE AND WHITE READY FOR BATTLE

Fans Gather at Milwaukee
to See Big Bout; Both
Think They Can Land
Knockout Blow

MILWAUKEE, Wis., May 26.—Milwaukee claimed today to be the sun of the boxing firmament, or at least the plexus of the solar system. Willie Ritchie is to box Charley White of Chicago here tonight for the lightweight championship. Fight fans from all over the middle west, began arriving here early today, anxious to see another champion in the making.

The battlers weighed in at 3 o'clock—a mere formality since Ritchie is well within the lines and White never did weigh up to the limit. As they stripped down it was apparent that neither scrapper has much advantage. White has a longer reach and is more cleanly built than the champion but Ritchie's slender build is deceptive. It hides some husky joils.

Under the Wisconsin boxing law the main bout will begin slightly before ten and go for ten rounds. Harry Stout will referee. In case there is no knockout, the championship cannot well change hands. Both fighters have hinted that there will be a sleep maker introduced before the ten rounds are over. Ritchie gets \$10,000 for his thirty minutes' work and White gets 25 per cent of the receipts.

FEDS NEED BIG BASEBALL STARS

NEW YORK, May 26.—Federal league baseball teams need headliners, a Ty Cobb or two or a few Walter Johnsons. This was the conclusion reached at a meeting of Federal chiefs here, and the Federals are casting about today for means of landing a few players whose names are baseball trade marks.

A more vigorous attack on the two major leagues should be made, according to the belief of several of the Federal magnates. The league is doing very well, the conference decided, but it needs big stars. The methods to be used by the Federals were not decided, or announced. There is an inclination to await the decision in the suit brought by August Herrmann against Pitcher Chief Johnson. The ten day notice of release clause is the issue involved, and it is through this release that the Federals hope to attack the American and National leagues.

FED SCARE GIVES CARDS CONTRACTS

ST. LOUIS, Mo., May 26.—Following conferences between four Cardinal players and a Federal agent, The Republic today prints a story that Sallee issued an ultimatum to President Britton and after a closeted interview came smilingly forth with a \$1,000 raise, loudly announcing that he would stick until South St. Louis went dry and predicting first division.

WELSH SHADES JOE MANDOT IN BATTLE

NEW ORLEANS, La., May 26.—Though Joe Mandot's friends and even several impartial critics today declared the local boxer had earned a draw in last night's milling with Freddie Welsh, the majority verdict gave the Englishman a shade. Welsh was credited with five rounds, Mandot with four, and one was even. Mandot's showing was a great surprise.

Every man's credit is good when it comes to borrowing trouble.

Studebaker

ECONOMICAL
LIGHT WEIGHT
SIX
\$1575

It holds the road;
it travels in a
straight line.

Set its course on the crown of a country highway, and the Studebaker SIX stays there.

It does not creep or slide to one side or the other, as many cars invariably do.

This quality we call road-ability.

It indicates perfect balance, and balance goes back to Studebaker engineering and manufacturing methods.

Specifying our own steels; giving them our own heat treatments; forging and machining and stamping all parts in our own plants; we build lighter and distribute that light weight with perfect uniformity.

So we have great advantages over the assembler.

He must accept the parts-maker's standards of quality and weight.

We set our own because we manufacture from raw materials made to Studebaker formulae.

The result is better quality, true roadability—vastly better value than any other "Six."

Send for the Studebaker Proof Book, describing Studebaker manufacturing methods.

LIPTON'S YACHT LAUNCHING FAVORED

PORTSMOUTH, England, May 26.—With cheers from a crowd of noted folk and yachting enthusiasts, the Shamrock IV, Sir Thomas Lipton's latest hope for the lifting of the America's cup, slid gracefully into the water at noon today. The launching took place at Camper & Nicholson's yard, Gosport.

As the stubby looking craft moved down the ways, warships' guns in the harbor boomed a royal salute in honor of the birthday of Queen Mary.

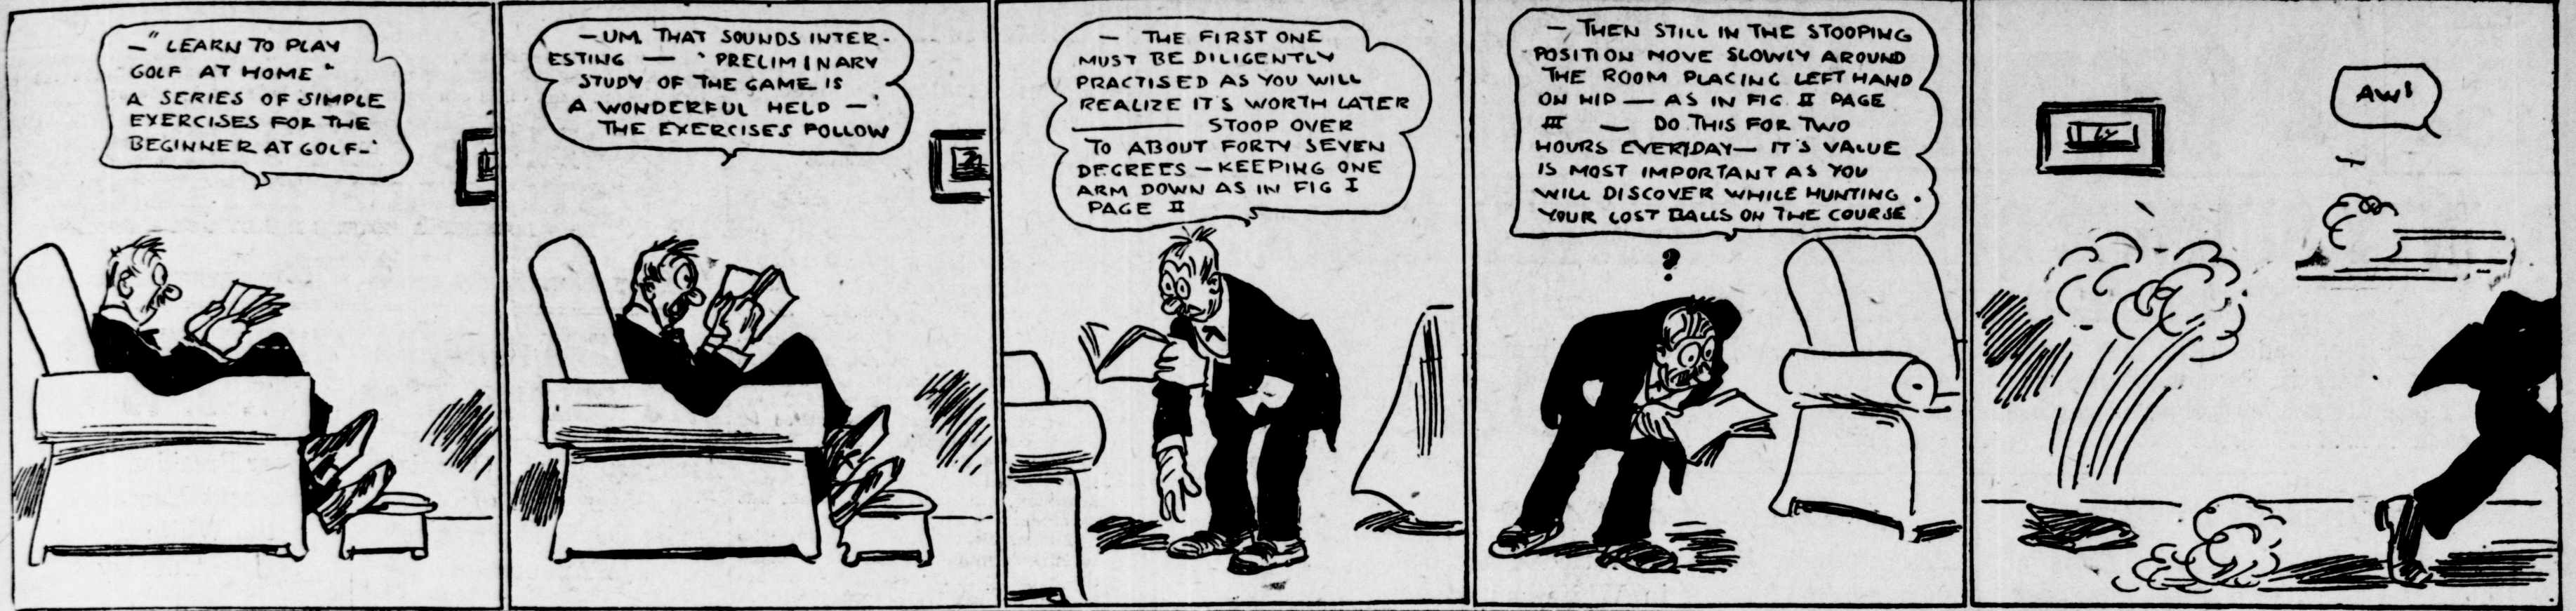

"That's a happy omen," Sir Thomas Lipton said.

When the Shamrock IV left her slip, she took her place alongside Nelson's ancient ship Victory, which impressed Sir Thomas, he said, as another favorable sign.

All the world's a stage, and all the men and women merely tangoers.

Aeschylus at Syracuse. For four days in April dramas of the Athenian tragic poet Aeschylus were performed in the old Greek theater at Syracuse, in eastern Sicily. Aeschylus has long been popular in Syracuse. Twenty-three centuries ago Athenian prisoners taken in the great defeat before that city, and sold as slaves after the custom of the time, earned their freedom by reciting the verses of their great poet. Perhaps some of the men thus set at liberty organized a company and acted "Prometheus Bound" or "The Persians" in the same theater where the same plays will be presented next spring. The poet who is held in favor for 2,300 years in one place cannot complain of public fickleness.

Occasionally we meet a man who can't stand prosperity, but more often we encounter men who never had a chance to find out.

Most of the mysteries don't amount to much when they cease to be that.

CITY TO AID IN FIXING WHITE WAY

Committees Vote to Contribute \$450 and Paving for Work on the Street Lights

Council committees last night approved a \$450 appropriation to be used in the repairing of the "White Way." This amount was requested by a committee of the Retail Merchants association and the city will relay the paving where it is necessary to tear it up.

The Homecoming and Made in La Crosse committee was granted permission to put up a temporary structure in the vacant alley between the Security and State banks on Fourth street. The building will be the headquarters of the committees.

Plans for the Normal school athletic field at the fair grounds were last night approved with minor changes. They were drawn by Park Superintendent John H. Forrer.

Introducing New Wood

Five million gallons of wood oil (also known as tung oil), made from the seeds of the wood oil tree, was imported from China last year, and the product is said to have had a revolutionary effect on the varnish industry of the United States. It has largely taken the place of kauri gum and has made possible the manufacture of a quicker drying varnish, which is less liable to crack than that made from kauri gum, and has been found of special value in waterproofing priming for cement. The tree is climatically adapted for cultivation in the Southern states, and the department of agriculture is distributing one-year-old specimens to bona fide experimenters.

FOREIGN MARKETS

New York Stocks

NEW YORK, May 26.—The tone was firm and stocks generally showed fractional gains at the opening of the market today but there was no relief from dullness.

Missouri Pacific opened at 16 1/2, down 1/4. Steel was unchanged, Reading up 1/4, at 166.

11 a. m.—Activity increased and prices hardened during the first hour. Favorable crop advices attracted attention.

Noon.—Union Pacific was the strongest of the active issues during the second hour, a fact which seemed to indicate that favorable crop reports, rather than the probability of rate increases was the main factor in the market's strength.

T. R. SAYS UNCLE JOE CAN DO WORST

OYSTER BAY, L. I., May 26.—Uncle Joe Cannon can go as far as he likes in making public letters he received from Roosevelt when he was speaker and T. R. was president. The colonel said so himself, today, responding to reported intimations from Danville that when the former czar of the house gets real busy in his campaign for re-election he will show some interesting correspondence. "I do not know what he is talking about," Roosevelt declared. "I doubtless wrote him and he doubtless wrote me. I have no letters of his left—most of them were filed away in the waste basket. He may publish any letters he pleases."

The crack English birdman, who recently announced a plan to cross the Atlantic in air, started from Paris for London on Saturday with a new monoplane. When he did not appear on the Dover side at the expected time, an alarm was sent out. The search has continued since Saturday night.

When Coffee Gets You—

The experience will be like that of thousands who have ignored the fact that coffee contains a habit-forming drug, caffeine—about 2 1/2 grains to the ordinary cup.

Some say, "Coffee don't hurt me," and seem to get on with it for a time. But there are few persons who can use coffee as a routine daily beverage and not sometime feel its effects — headache, nervousness, indigestion, biliousness, sleeplessness, heart trouble, or some other discomfort.

Thousands have found relief by stopping coffee and using

POSTUM

A delicious table beverage made only from whole wheat and a small per cent of molasses, POSTUM contains the nourishment of the grain, including the essential mineral salts (phosphate of potash, etc.), but is positively free from the drug, caffeine, or any other harmful substance.

Postum now comes in two forms:

Regular Postum—must be well boiled—15c and 25c pkgs.

Instant Postum—a soluble form—requires no boiling—30c and 50c tins.

The cost per cup of both kinds is about the same.

There's a mighty army of POSTUM users—the number is steadily growing—and

"There's a Reason"

Grocers everywhere sell POSTUM.
